The Alaska Department of Fish and Game, Division of Wildlife Conservation, Statewide Waterfowl Program is recruiting for a permanent full-time Wildlife Biologist III (PCN 11-2132) that will be based in the Anchorage office. This recruitment is open to Alaska Residents only and will close at 5pm AKST Friday, November 23, 2018. The incumbent in this position will work as part of a team to promote and implement waterfowl research and management with local, statewide, and national implications. The responsibilities of this position will be a balance between management and research. The incumbent will be directly responsible, will partner, or will assist in planning, budgeting, design, coordination, implementation, and reporting of waterfowl research and management projects. The incumbent also will be responsible for providing technical guidance on waterfowl and wetland issues to the Habitat Division and other Department staff to formulate land use policies and regulations, review management plans, provide impact assessments, and formulate mitigations to ensure waterfowl resource concerns are met.

The recruitment bulletin can be found on Workplace Alaska at: https://www.governmentjobs.com/careers/alaska/jobs/2265860/wildlife-biologist-iii-pcn-11-2132?keywords=wildlife%20biologist&pagetype=jobOpportunitiesJobs

Anyone with questions or in need of additional information about the position can contact me at jason.schamber@alaska.gov or 267-2206.

Thank you,

Jason
