Insignia Environmental

**Environmetal Inspector/Biological Monitor: San Francisco Bay Area, CA**

**Description**

About Insignia Environmental

Insignia Environmental is a growing environmental consulting company focused on the needs of energy and infrastructure clients. We have a foundation in engineering and science and real-world construction experience that translates into environmental documents and programs that represent the best in class for our clients and the environment. Insignia holds performance and responsiveness paramount while working with clients to meet their environmental needs often on expedited timelines. We pride ourselves on knowing the latest environmental regulations, understanding the goals of our clients and regulatory agencies, and producing high-quality deliverables.

Why Join Us?

At Insignia Environmental, we work hard and take pride in a reputation of excellence that we have earned in our industry. The diversity of our projects ensures employees are appropriately challenged and learning new things. We are looking for employees that strive to be the best in their field and enjoy sharing knowledge and gaining it from others in an interactive environment. Insignia also encourages and supports our employees in workshop and conference attendance to continue education in their field.

Insignia offers a casual, enjoyable work environment and opportunities for input and advancement. Candidates must be comfortable with dogs, as several large ones “work” in our office.

Position Details

Insignia is looking for an Environmental Inspector/Biological Monitor for a project located in the San Francisco Bay Area. Project includes working extensively in salt marsh habitat.

Job Description

- Conduct pre-construction surveys for sensitive and rare species, including California Ridgway's Rail (*Rallus obsoletus obsoletus*) and Salt Marsh Harvest Mouse (*Reithrodontomys raviventris*).
- Conduct fieldwork as needed to prepare deliverables including vegetation surveys, habitat assessments, and related studies.
- Perform construction monitoring and ensure compliance with environmental measures.
- Prepare written reports, letters, permit applications, training programs and other deliverables as assigned.
- Coordinate production of materials with vendors.
- Create graphics and maps.
- Deliver trainings and oral presentations.
- Review deliverables to ensure the highest level of quality.

Min Education:
BA/BS/Undergraduate

Min Experience:
1-2 Years

Required Travel:
50-75%

Requirements

- Experience with the Salt Marsh Harvest Mouse.
- Experience with the California Ridgway's Rail (formerly California Clapper Rail, *Rallus longirostris obsoletus*).
- Previous experience conducting environmental inspections or biological monitoring.
- Bachelor of Science degree or higher in biology, ecology, botany, or a related science.
- Working knowledge of regulations pertaining to environmental protection.
- Familiarity with erosion and sediment control measure implementation.
- Working knowledge of personal computers, including Microsoft Office.
Other

- Valid driver’s license and good driving record
- Willingness and ability to travel
- Ability to conduct fieldwork, including hiking, ATV use, four-wheel-drive vehicle use, and enduring long periods of standing, in inclement weather conditions
- Willingness to work fluctuating and/or long hours as necessary
- Valid driver license
- Ability to safely operate a 4WD vehicle when needed

How to Apply

Interested applicants should submit a resume to jobs@insigniaenvironmental.com with a brief cover letter or cover email, including compensation history and requirements. Please include the word “resume” and “El/Bio Monitor” in the subject line of your email. We request that applicants refrain from calling our office directly regarding this position.

Insignia may request, for lawful employment purposes, background information about candidates from a consumer reporting agency in connection with employment.

Insignia is an equal opportunity employer. Insignia does not discriminate on the basis of race, color, religion, sex, pregnancy, childbirth, national origin, age, marital status, veteran status, sexual orientation, sexual identity, mental or physical disability, genetic predisposition or characteristics, or any other characteristics protected by applicable state or federal civil rights law.
