<tr>
<td>Department Description</td>
<td>The Fisheries Analysis Center (FAC) at the University of Wisconsin-Stevens Point is funded by the Wisconsin DNR to provide analyses of fish population dynamics and demographics as they relate to fisheries management and environmental variability. The FAC is affiliated with the Wisconsin Cooperative Fishery Research Unit (WICFRU), a collaborative effort between the College of Natural Resources (CNR) at the University of Wisconsin-Stevens Point, the U.S. Geological Survey and the Wisconsin Department of Natural Resources (WDNR). WICFRU is integrated into the Water discipline of the CNR, which includes experts in fisheries management, aquatic habitat, aquatic toxicology, limnology, entomology, watershed management, and water chemistry. The WICFRU provides research and technical support for the State of Wisconsin and also works with graduate education, mentoring and professional collaboration for the CNR.</td>

<tr>
<td>University Description</td>
<td>Through the discovery and dissemination of knowledge, UW-Stevens Point stimulates intellectual growth, provides a liberal education, and prepares students for a diverse sustainable world. The university is committed to creating a safe, inclusive learning community for all faculty and staff from a variety of backgrounds. Visit <a href="http://www.joinuwsp.org">www.joinuwsp.org</a> for more information about UW-Stevens Point and <a href="http://www.everythingpointshere.com/">www.everythingpointshere.com/</a> for more information about the Stevens Point community.</td>
</tr>
<tr>
<td>Position Summary</td>
<td>This full-time academic staff appointment at UW-Stevens Point will provide technical level support to the Winnebago System lake sturgeon management program. The position will entail a balanced workload of field and office-based tasks. Field-based tasks will include set up and take down of sturgeon registration stations, collection of biological data during standard harvest and stock assessments, maintenance of an acoustic telemetry receiver array, collection of diet and forage availability data, and support of UWSP led research projects. The Wisconsin DNR anticipates having a graduate research project begin each fall for the foreseeable future and this position will provide technical assistance to these projects. Office-based tasks include data entry into Excel spreadsheets and Access tagging databases, preliminary data analysis, general lab work, fish age estimation, public outreach, and equipment maintenance and fabrication. This position will serve as a crew leader on multiple projects and thus the candidate must possess strong leadership and communication skills.</td>
