Erich Follmann Memorial Student Research Fund

The Erich Follmann Memorial Student Research Fund was established to provide supplementary support to graduate students at the University of Alaska Fairbanks studying carnivores in the Arctic. The fund was established in memory of professor and wildlife biologist Erich Follmann following his death in 2010.

To be eligible, a student must be:
- A graduate student enrolled in the Department of Biology and Wildlife or the School of Fisheries and Ocean Sciences
- In good academic standing
- Conducting research related to carnivorous mammals in the Arctic, including both terrestrial and marine species

Award Amount: The maximum grant size is limited by the amount available in the fund. Students are encouraged to request the amount they need.

Use of Funds: Funds are intended to assist with incidental expenses of field research, including but not limited to travel, contractual services, supplies, and equipment. Expenses associated with travel to meetings or conferences in order to present the results of research are also acceptable.

Application Procedure: Write a 400-600 word statement on the subject of your research, including the amount of funding requested and the intended use of funds. Include in the document your name and UAF identification number, degree (MS or PhD), program, major advisor; the semester you started, and the semester you intend to graduate. Submit the statement to UAF-BW-Apps@alaska.edu

Deadline: Funds may be requested at any time of year

General questions or concerns about this scholarship can be addressed to the Scholarship Coordinator, 474-6228, or via email to uaf-scholarships@alaska.edu. More scholarship information may be found at http://uaf.edu/finaid/scholarships/.
