Alaska Space Grant Program
Summer Research Fellowships

Research Fellowships of up to $5,000 will be awarded through a competitive process. Fellowships are open to new and continuing students to support research projects fostering the vision of NASA by encouraging career goals in STEM disciplines, strengthening the nation’s STEM workforce and engaging Americans in NASA’s mission. Students receiving awards in past competitions may apply and receive awards for subsequent competitions. Women, under-represented minorities and persons with disabilities are strongly encouraged to apply. Students are required to identify a faculty mentor with whom they intend to work and who is available to write a letter of collaboration.

Application deadline is March 1!
